

Many people who receive a copy of the Bible lose interest in reading it after a short while.

Many things in the Bible are difficult for first readers.

And this is how the idea of a Simple Bible came about: something for first readers that would be easy to read.

Hopefully after reading the Simple Bible, people will be more interested and better prepared to read the whole Bible.

After each chapter of the Simple Bible, there is a little prayer, to link the chapter to ordinary life.

A Chinese edition of this book is available. The Simple Bible, in Chinese and English, is at www.simplebible.info

Recommended: Read a little in the morning, think about it during the day, read it again at night.

Prayer before reading: **Come Holy Spirit, please help me understand what I read**
